DRAFT for counsel review. Items marked [confirm] still need a final answer.

Consumer Health Data Privacy Policy

Last updated October 27, 2026 · Escape Enterprises LLC

Our promise. We collect health data only to provide Escape, with your consent. We never sell it, never use it for ads, and never geofence health locations.

1. What this covers
2. Health data we collect
3. Where it comes from
4. Why we use it
5. Who receives it
6. Your rights

1. What this covers

This policy describes how Escape collects, uses and shares "consumer health data" as defined by Washington's My Health My Data Act and similar laws in Nevada and Connecticut. It adds to our Privacy Policy.

2. Health data we collect

- Mood check-ins: mood words, sliders, notes and energy levels.
- Heart rate saved with a check-in, and the pulse estimate from a Mood Scan.
- Data from Apple Health or Health Connect that you allow: heart rate, heart-rate variability, resting heart rate, sleep, steps and State of Mind.
- Journal entries and conversations with Lucille that describe your wellbeing, and memories Lucille keeps from them.
- Wellbeing inferences such as your Energy Scan and suggested self-care plans.
- Safety signals: whether a message showed signs that someone may be at risk.

3. Where it comes from

- You, when you check in, write, talk to Lucille or build a plan.
- Your device, when you allow Apple Health, Health Connect or the camera for a Mood Scan.
- Our systems, which create the inferences listed above.

4. Why we use it

- To provide the features you ask for: check-ins, journal, Lucille, plans, Soundscapes and the Energy Scan.
- To show crisis resources when someone may be at risk.
- To keep the service secure and working.

We ask for your consent before collecting health data, and separately before sharing it, except where it's strictly needed to provide the feature you asked for.

5. Who receives it

- **Processors that run Escape for us:** Google Cloud and Firebase (storage), OpenAI (Lucille's replies and transcription), Anthropic (only for adults in our opt-in Lucille experiment).
- **Nobody else,** unless the law requires it or someone's life is at risk.

We never sell consumer health data and never use it for advertising. We do not set up geofences around places where people get health care.

6. Your rights

- Confirm whether we collect, share or sell your health data, and see a list of the third parties that received it.
- Get a copy of your health data (Profile → Privacy & data → Download my data).
- Withdraw consent at any time in Privacy & data.
- Delete your health data. We act within 45 days (30 days in Nevada) and pass the request to our processors.
- Appeal a decision by replying "Appeal" to our answer. If you're still unhappy, you can contact the Washington Attorney General at atg.wa.gov.

Use Privacy & data in the app, the delete-account page, or email privacy@escapeapp.ai.
